

Spring '26 Newsletter

We hope our newsletter finds you well! This Spring season at Washington Roofing & Insulation Inc, we are thinking **GREEN. Read on to find out how!**

Have new roof leaks been “sprung” onto you this year?

- heavy rainfall & strong winds from springtime thunderstorms expose weaknesses in roofing membranes
- clogged gutters cause overflow and push water under roof edges, creating swelling
- freeze-thaw cycles open small gaps in roof seams, flashing, and sealants

We are offering **free** estimates and would love to visit you! Get your roof back in tip-top shape and worry less about future leaks with a new roof coating system.

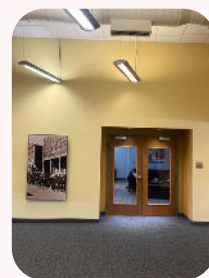

THINKING GREEN...

You might be thinking...what does roofing have to do with being eco-conscious? Our roof coating systems are more environmentally friendly than a full roof tear-off and replacement. They can extend a roof's life without generating large amounts of construction waste, and lessen the need to produce new roofing materials. To *top it off* (in true roof fashion), surfaces coated with silicone or elastomeric coatings reflect UV rays and prevent thermal bridging - leading to better energy efficiency and lower cooling costs!

Are you in the Kansas City Metro Area? We have a new location in Blue Springs! Come say “Hello”!

Find us on the corner of Adam's Dairy Pkwy and R.D. Mize, located in the old Dairy Factory building.

SPEAKING OF GREEN...

The CKPC Soccer Stadium in Kansas City turns 2 this week! But, did you know that this special stadium is the 1st sporting venue to achieve **LEED Gold certification** in the state of Missouri? Talk about LEED-ing by example!

FIFA WORLD CUP COMES TO KANSAS CITY IN 2026!

Starting on June 16th, Kansas City will host a total of 6 World Cup games, including the quarter-final! Will you be there to witness sporting history?

& BACK TO THE SPORTING GROUNDS FOR OUR KIDS!

Great Bend, Kansas - home to our main office and some great baseball! We are proud to partner with the Barton County Community College Baseball Team - look for our Washington Roofing logo in the outfield!

Spring brings positive change and a refreshing outlook on life. Take a moment today to breathe in the fresh air, listen to the birds chirping, and notice the trees beginning to bud—small reminders of the new life and renewal that this beautiful season brings.

At Washington Roofing & Insulation Inc, we're grateful for the opportunity to be part of renewal in another way, in helping businesses extend the life of their roofs through high-quality commercial roof coating systems that restore and protect what's already in place.

How will you think green this Spring?

We are wishing you a season filled with growth, renewal, and many blessings.

800-383-3062

Sincerely,
the team at Washington Roofing & Insulation Inc.
